STRATEGY	Study design, research planning, stakeholder workshops, insight generation and synthesis
TOOLS	Dovetail, Figma, ChatGPT, Claude, Qualtrics, NVivo, Atlassian, Excel, R, Stata, SurveyMonkey, Optimal Workshop, Miro, Asana, Jira
COMMUNICATION	Storytelling, reporting, cross-functional collaboration

02 EXPERIENCE

CommunicateHealth — UX Researcher
2024–2025

- Led end-to-end UX research for federal, healthcare, and commercial clients including ODPHP, the American Medical Association, and Eli Lilly.
- Created moderator guides, screeners, protocols, and study materials for rigorous, consistent data collection.
- Embedded with client product and design teams to turn findings into actionable recommendations and iterative product improvements.
- Ensured compliance with human-subjects requirements, including IRB and OMB; CITI-certified.

Fors Marsh — UX Researcher
2021–2024

- Led end-to-end UX research for clients including Meta, NIH, SSA, and IRS using usability testing, interviews, heuristic evaluations, and mixed-methods analysis.
- Facilitated research sessions and synthesized qualitative and quantitative findings into clear product and design recommendations.
- Ran a website usability study and insights workshops with 20+ stakeholders, aligning them around user needs and redesign priorities.
- Shaped product priorities by surfacing recurring pain points, behavioral patterns, and unmet needs.

Fors Marsh — Research Analyst II
2021–2022

- Led weekly behavioral and sentiment research reports, distilling large volumes of data into concise insights for decision-makers.
- Developed surveys and focus-group protocols for the HHS “We Can Do This” campaign and synthesized findings into strategic recommendations.

Harvard Pilgrim Health Care Institute — Project Coordinator
2020–2021

- Managed FDA-funded research projects and coordinated cross-functional research and operations teams.
- Maintained project tracking in Atlassian and improved internal documentation with SMEs and users.

Brigham and Women’s Hospital — Research Associate
2019–2020

- Conducted quantitative analysis in R for maternal health research; designed surveys and analyzed mixed-methods data.

03 EDUCATION

MPH — Epidemiology & Biostatistics, Global Health
Boston University, 2020

BA — Health Administration & Public Policy
University of Maryland, Baltimore County, 2017

Nielsen Norman Group — UX Certifications: Usability Testing, UX Basics, Information Architecture
